About Me

I am passionate about using digital marketing to create engaging content and drive measurable results. This portfolio highlights my key projects involving social media marketing, content creation, SEO, and campaign management. Each project showcases my skills, tools, and the positive outcomes achieved.

Reclaimed Colors & TeleMed Health

Work Samples

Project Title: Volunteer Recruitment Campaign for Toenail Health Study

Overview:

This campaign aimed to recruit adult volunteers aged 25-65+ who have experienced toenail fungus or tried treatment options. The goal was to gather valuable personal stories through quick remote interviews to inform the development of improved toenail care solutions.

My Role:

I crafted clear, persuasive ad copy and recruitment messages that communicated the study's purpose and benefits. I ensured the messaging was empathetic and engaging to encourage participation. Additionally, I coordinated communication channels and facilitated scheduling through follow-up emails and links.

Tools Used:

Google Docs (for drafting copy), Email marketing platforms, Calendly (for scheduling interviews), and Google Drive (for managing responses).

Results:

Successfully recruited 8-12 volunteers within 2 weeks, enabling the research team to collect critical qualitative data that will shape future toenail care products. Engagement rates on outreach emails and messages exceeded industry averages by 60%

Project Title: Brand Messaging for Toenail Fungus Clinic

Overview: Created clear, consistent brand messaging to highlight the clinic's expert, personalized, and effective toenail fungus treatments.

My Role: Crafted key messages like brand promise, positioning, elevator pitch, and website content guidelines to align marketing efforts.

Tools Used: Google Docs, Email.

Results: Strengthened the clinic's brand voice, improved patient trust, and supported website and social media growth.

Project Title: Interview Guide Summary

Intro: Explain purpose, ensure anonymity, encourage honesty.

Section 1: Experience, symptoms, past treatments.

Section 2: Treatment preferences, clinic involvement, telehealth.

Section 3: Trust factors, care expectations, pricing transparency.

Section 4: Choosing reasons, testimonials, and improvement ideas.

Closing: Thank you and final thoughts.

Goal: Understand patient needs to improve care.

Tools Used: Google Docs, Email.

Project Title: Welcome Email Template 1 — Reclaimed Colors Community

Overview: Designed a warm, engaging welcome email to greet new subscribers and introduce them to Reclaimed Colors' creative and sustainable brand.

Key Elements:

- Friendly greeting and personalized name insertion
- Highlights community values: creativity, sustainability, timeless design
- Promises exclusive updates, inspiration, and special offers
- Encourages engagement with contact options and social links

Tools Used: Google Docs

Results: Increased subscriber engagement and set a positive tone for ongoing communications.

Project Title: Welcome Email Template 2 — Reclaimed Colors “Golf Meets Art”

Overview: Created a themed welcome email blending art, sustainability, and golf passion to connect with the brand’s unique audience.

Key Elements:

- Story-driven introduction about the founder and brand mission
- Highlights exclusive content: design inspiration, behind-the-scenes, early offers
- Invites readers to explore the art and engage with the community
- Warm closing with social media links and a playful P.S.

Tools Used: Google Docs

Results: Built brand connection and excitement among new subscribers, reinforcing brand identity.

Project Title: Competitor Analysis & Marketing Recommendations

Overview: Reviewed competitors' websites to find strengths, weaknesses, and growth opportunities for the toenail fungus clinic.

Competitor Highlights:

- Hello Alpha: Telehealth, transparent pricing, educational blogs.
- Trim Down Clinic: Affordable packages, clear messaging, and success stories.
- Mochi Health: Personalized plans, detailed services, strong content.

Likes: Transparent pricing, educational content, clear “Why Us,” simple navigation.

Dislikes: Unclear pricing, overwhelming info, weak customer support.

Trends: Telehealth, easy platforms, educational content, active social media.

Credibility: Doctor profiles, testimonials, media mentions, social engagement.

Recommendations:

- Transparent pricing & bundles
- Clear service & treatment info
- Educational blog & FAQs
- Async support: chat & booking
- Highlight “Why Us” benefits
- Promote social media prominently

Tools: Google Docs, research

Results: Improved website content, trust, and engagement

Project Title: Competitor Analysis & Recommendations

Competitors:

- Zerofungus: Natural, educational, no clear pricing
- EMUAID: Fast relief, many reviews, little education
- Fungus Clear Clinic: Clinic care, interactive tools, complex content
-

Key Takeaways:

- Clear pricing, strong education, and credibility build trust.
- Easy booking, telehealth, and social media boost engagement.

Recommendations:

- Highlight expert, convenient care with transparent pricing.
- Develop blogs, FAQs, and simple, clear content.
- Showcase doctors, testimonials, and awards.
- Promote social media actively.

Tools Used: Google Docs, Market Research, Competitive Analysis

Goal: Improve trust, engagement, and website conversions.

Startup Intro

Work Samples

Project Title: LinkedIn Post Series: AI Fundraising & Pricing Trends

What: 15 posts with key insights on fundraising, pricing, and AI startup trends.

Tools: AI Fundraising PPT, market research (Carta, PitchBook, a16z).

Goal: Share actionable tips for founders to navigate funding and pricing in today's AI market.

Project Title: LinkedIn Posts: B2B Monetization Trends 2025

What: 8 LinkedIn posts summarizing key insights on evolving B2B pricing models, including seat-based decline, hybrid pricing, and outcome-based strategies.

Tools: Growth Unhinged B2B Monetization 2025 report, Product Hunt posts, SaaS case studies.

Goal: Share actionable, easy-to-digest trends helping founders and operators rethink monetization strategies for AI- and SaaS-driven B2B businesses.

Project Title: LinkedIn Posts: Trends in Artificial Intelligence

What: 21 LinkedIn posts crafted from the Bond Capital 2024 AI Trends report, highlighting shifts like agentic workflows, composable AI, orchestration layers, and the democratization of creation.

Tools: BondCap AI Trends Report, Product Hunt shoutouts, insights from leading AI startups (OpenAI, Anthropic, Mistral, Sakana, Symbolica, Humata, Fixie, etc.).

Goal: Share bite-sized, actionable trends to help founders, operators, and tech leaders understand where AI is heading and inspire them to build products aligned with the future of automation and intelligence.

Project Title: Fundraising & AI Startup Trends 2025

What: Key LinkedIn posts on seed-to-Series A shifts, AI valuations, lean teams, ARR/FTE, and option pools.

Tools: Data from Carta, Founder Institute, Axios, Crunchbase, Tracxn, and founder case studies.

Goal: Help founders navigate the tough, AI-driven fundraising landscape and build smarter.

Process Tempo

Work Samples

Project Title: 2025 AI & Fundraising Trends Summary

Summary: Covers 2025 trends in startup fundraising and AI: tougher seed-to-Series A path, rising valuations, leaner teams, ARR/FTE focus, and shrinking option pools. Includes LinkedIn post ideas to share insights and SEO keywords to boost visibility.

Goal: Help founders navigate the new fundraising landscape, create engaging LinkedIn posts, and rank with targeted SEO.

Project Title: Revolutionizing Low-Code/No-Code with AI and Process Tempo

Summary: Process Tempo uses AI and process mining to speed up low-code/no-code app development. It improves workflow visibility, automates tasks, and reduces IT backlog, helping both tech and non-tech users build faster.

Includes LinkedIn post ideas and SEO keywords for promotion.

Goal: Show how Process Tempo transforms app development and boosts efficiency.

Project Title: 7 Digital Transformation Mistakes to Avoid with Process Tempo

70% of digital transformations fail, mostly due to poor process focus, lack of buy-in, and ignoring continuous improvement. Process Tempo helps you transform smarter with advanced analytics and rapid app development.

Common Mistakes:

- No executive support
- Only focusing on technology
- Ignoring process data
- Creating technical debt
- Treating it as a one-time project
- Neglecting change management
- Poor legacy integration

Includes LinkedIn post ideas and SEO keywords to boost your content reach.

Project Title: Why Speed Alone Won't Save Your Digital Transformation

70% of digital transformations fail, not because of tech, but because companies automate broken processes without understanding them. Fast apps aren't enough.

Process Tempo's smarter approach combines:

- Deep process insight to map and analyze workflows
- Change enablement to redesign and test improvements
- Rapid app development for quick, targeted delivery
- Continuous optimization to keep evolving

This stops shadow IT, reduces IT bottlenecks, and modernizes legacy systems safely.

LinkedIn post ideas and SEO keywords are included to boost your reach.

Let's Connect!

I'm always open to new opportunities and collaborations. Feel free to reach out!
